

# MEPNN Supplier Scouting Opportunity Synopsis

## Section 1: General Information

Scouting Number	2026-102
Item to be Scouted	Self-Adhered Flashing
Days to be scouted	30
Response Due By	04/24/2026
Description	New construction apartment project with BABA requirements is seeking a BABA compliant self-adhered flashing product, similar to DuPont Tyvek StraightFlash

## Section 2: Technical Information

Type of supplier being sought	Manufacturer
Reason	BABA
Describe the manufacturing processes (elaborate to provide as much detail as possible)	Flash-spun, rolled, adhered. Self-adhered flashing is made by first compounding a hot-melt bitumen (or polymer-modified acrylic) adhesive and heating it to 150-180°C. The molten adhesive is coated onto a thin carrier film (PE, PP, PET or reinforced fabric) in a roll-to-roll or slot-die line, then the carrier is laminated to the adhesive under controlled nip pressure and immediately cooled to solidify the bitumen. A silicone-coated release liner is subsequently laminated onto the adhesive side, often with a brief UV/IR cure for polymer-based systems. The laminated web is embossed, printed, slit to width, and optionally die-cut into pre-shaped pieces before being rewound onto cores. Throughout the process inline thickness gauges, vision inspection, and ASTM-standard adhesion, tack, and water-penetration tests ensure the final product meets waterproofing and peel-off performance requirements.
Provide dimensions / size / tolerances / performance specifications for the item	4" wide rolls
List required materials needed to make the product, including materials of product components	Topsheet (high-density polyethylene fibers flash-spun into a continuous sheet) and butyl-based adhesive layer
Are there applicable certification requirements?	No
Are there applicable regulations?	No
Are there any other standards, requirements, etc.?	No
Additional Technical Comments	

## Section 4: Business Information

Estimated potential business volume	3,300 linear feet of flashing (22 rolls of 150 ft), 1 time
Estimated target price / unit cost information (if unavailable explain)	\$3,058, estimated
When is it needed by?	6 months +
Describe packaging requirements	Best available. Delivered undamaged. Specifics discussed in negotiation.
Where will this item be shipped?	Austin, MN

## Additional Comments

Is there other information you would like to include?

Agency providing funds: Minnesota Housing Finance Agency (MHFA); MHFA contact: Aaron Keniski or Ciny Diel; Email: aaron.keniski@state.mn.us or cindy.diel@state.mn.us
