

MEPNN Supplier Scouting Opportunity Synopsis

Section 1: General Information

Scouting Number	2026-343
Item to be Scouted	BABA: Truss Package
Days to be scouted	30
Response Due By	08/07/2026
Description	BABA Compliant: Truss Package

Section 2: Technical Information

Type of supplier being sought	Other
Details	Distributor / Manufacturer
Reason	BABA
Describe the manufacturing processes (elaborate to provide as much detail as possible)	Domestic components in each of the BABAA compliant manufactured products must exceed 55% of the total component cost and be assembled in the United States. May involve but is not limited to Die-casting or extrusion for aluminum parts or injection molding for plastic parts, CNC machining, powder coating or anodizing, painting or polishing, soldering, electrical assembly and/or mechanical assembly

Provide dimensions / size / tolerances / performance specifications for the item	See attached specs and mechanical schedule for more information. PERFORMANCE REQUIREMENTS A. Structural Performance: Provide metal-plate-connected wood trusses capable of withstanding design loads within limits and under conditions indicated on the structural documents. Comply with requirements in TPI 1 unless more stringent requirements are specified below. 2.2 DIMENSION LUMBER A. Lumber: DOC PS 20 and applicable rules of grading agencies indicated. If no grading agency is indicated, provide lumber that complies with the applicable rules of any rules writing agency certified by the ALSC Board of Review. Provide lumber graded by an agency certified by the ALSC Board of Review to inspect and grade lumber under the rules indicated. 1. Provide dry lumber with 15 percent maximum moisture content at time of dressing. B. Permanent Bracing: Provide wood bracing that complies with requirements for miscellaneous lumber in Division 06 Section "Rough Carpentry." 2.3 METAL CONNECTOR PLATES A. General: Fabricate connector plates to comply with TPI 1. B. Hot-Dip Galvanized-Steel Sheet: ASTM A 653/A 653M; Structural Steel (SS), high-strength low-alloy steel Type A (HSLAS Type A), or high-strength low-alloy steel Type B (HSLAS Type B); G60 (Z180) coating designation; and not less than 0.036 inch (0.9 mm) thick. 2.4 FASTENERS A. General: Provide fasteners of size and type indicated that comply with requirements specified in this article for material and manufacture. 1. Provide fasteners for use with metal framing anchors that comply with written recommendations of metal framing manufacturer. 2. Where trusses are exposed to weather, in ground contact, made from pressure-preservative treated wood, or in area of high relative humidity, provide fasteners with hot-dip zinc coating complying with ASTM A 153/A 153M. B. Nails, Brads, and Staples: ASTM F 1667. 2.5 METAL FRAMING ANCHORS AND ACCESSORIES A. Allowable Design Loads: Provide products with allowable design loads, as published by manufacturer, that meet or exceed those indicated. Manufacturer's published values shall be determined from empirical data or by rational engineering analysis and demonstrated by comprehensive testing performed by a qualified independent testing agency. B. Galvanized-Steel Sheet: Hot-dip, zinc-coated steel sheet complying with ASTM A 653/A 653M, G60 (Z180) coating designation. 2.6 FABRICATION A. Assemble truss members in design configuration indicated; use jigs or other means to ensure uniformity and accuracy of assembly with joints closely fitted to comply with tolerances in TPI 1. Position members to produce design camber indicated. 1. Fabricate wood trusses within manufacturing tolerances in TPI 1. B. Connect truss members by metal connector plates located and securely embedded simultaneously in both sides of wood members by air or hydraulic press.
---	---

List required materials needed to make the product, including materials of product components	See attached specs and mechanical schedule for more information.
Are there applicable certification requirements?	Yes
Details	Must be able to submit BABAA manufactured product self-certification manufactured product letter that details a compliant product.
Are there applicable regulations?	No
Are there any other standards, requirements, etc.?	No
Additional Technical Comments	See attached specs and mechanical schedule for more information.

Section 4: Business Information

Estimated potential business volume	TBD post selection. Quantity not determined at this time. Cost should be the best available, and cannot increase the project cost by 25%.
Estimated target price / unit cost information (if unavailable explain)	TBD post selection. Cost should be the best available, and cannot increase the project cost by 25%.
When is it needed by?	Q3 - 4 2026
Describe packaging requirements	Best available. Must arrive undamaged. Specifics discussed in negotiation.
Where will this item be shipped?	Colorado

Additional Comments

Is there other information you would like to include?	Agency providing funds - HUD Name/POC for BABA related questions - Sullivan Staires Email address of contact - Sullivan.Staires@okalliance.com Nationwide Search Provide written documentation in response to the Supplier Scouting request for being a current Build America Buy America Act compliant Truss Package manufacturer with experience in manufacturing the system components, meeting the product performance requirements. Information on BABAA compliance requirements can be found at the Made in America Office link https://www.madeinamerica.gov/. Switchgrass Apartments
