

# MEPNN Supplier Scouting Opportunity Synopsis

## Section 1: General Information

|                          |                                                                          |
|--------------------------|--------------------------------------------------------------------------|
| Scouting Number          | 2026-529                                                                 |
| Item to be Scouted       | BABA: Lattice Towers                                                     |
| Days to be scouted       | 30                                                                       |
| Response Due By          | 10/23/2026                                                               |
| Description              | Hello, we are searching for a U.S. Manufacturer for Steel Lattice Towers |
| State item to be used in | California                                                               |

## Section 2: Technical Information

|                                                                                               |                                                                                                                                                                                                                                                                                                                                                                                                                           |
|-----------------------------------------------------------------------------------------------|---------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| Type of supplier being sought                                                                 | Manufacturer                                                                                                                                                                                                                                                                                                                                                                                                              |
| Reason                                                                                        | BABA                                                                                                                                                                                                                                                                                                                                                                                                                      |
| Describe the manufacturing processes (elaborate to provide as much detail as possible)        | The manufacturing of lattice towers begins with CNC cutting and punching of structural steel angles and pipes to ensure precise hole alignment for bolting. These components are then welded to attach mounting plates and gussets, followed by a trial assembly to verify dimensional accuracy. To prevent corrosion, the fabricated parts undergo hot-dip galvanizing, a process of dipping the steel into molten zinc. |
| Provide dimensions / size / tolerances / performance specifications for the item              | These are Transmission Towers. Please respond with all available styles and sizes.                                                                                                                                                                                                                                                                                                                                        |
| List required materials needed to make the product, including materials of product components | The towers are made of steel                                                                                                                                                                                                                                                                                                                                                                                              |
| Are there applicable certification requirements?                                              | Yes                                                                                                                                                                                                                                                                                                                                                                                                                       |
| Are there applicable regulations?                                                             | No                                                                                                                                                                                                                                                                                                                                                                                                                        |
| Are there any other standards, requirements, etc.?                                            | No                                                                                                                                                                                                                                                                                                                                                                                                                        |
| Additional Technical Comments                                                                 | Hello, we are in search of steel lattice towers that are manufactured in the U.S. to be used on projects                                                                                                                                                                                                                                                                                                                  |

## Section 4: Business Information

|                                                                         |                                                                                                   |
|-------------------------------------------------------------------------|---------------------------------------------------------------------------------------------------|
| Estimated potential business volume                                     | We would need these for all federal projects when we partner with Federal agencies.               |
| Estimated target price / unit cost information (if unavailable explain) | Best available, as this is related to BABA, acceptable pricing is to be determined in negotiation |
| When is it needed by?                                                   | 30 Days                                                                                           |
| Describe packaging requirements                                         | Best available. Delivered undamaged. Specifics discussed in negotiation.                          |
| Where will this item be shipped?                                        | California                                                                                        |
